agreement signed by General Cabell and Mr. Gilpatric. The memorandum took exception to several DOD desires and suggested the prime responsibility and authority for certain projects will rest with one or the other of the co-directors. To date there is no knowledge of the Director's reaction to this memorandum.

25X1

has also prepared an additional memorandum for Dr. Sceville's signature to the Director which comments upon the Director's memorandum for the file regarding Dr. Charyk's designation as single head of the NRO. This second memorandum cautions the Director against establishing an organisation based upon a single individual; and, although it concedes that Dr. Charyk may be a benevolent Director of the NRO as far as the Agency is concerned, there is no guarantee that Dr. Charyk will continue to infinity in this post and that a replacement may not be disposed to the Agency as Dr. Charyk may now be. Dr. Scoville has not forwarded this memorandum to the Director as of this writing.

SIGNED

JOHN N. McMAHON
Executive Officer, DPD-DD/R
